## DIRECTOR SOUGHT FOR RELIEF PROBE

Several Names Are Sifted  
in Effort to Locate  
Impartial Expert.

Ringgold Hart, chairman of the committee named to select a director of the investigation of District relief needs authorized by Congress, said today several names were being sifted in an effort to pick a person qualified to make an absolutely impartial survey.

"We consider it most important to select the right individual for this job," Attorney Hart said, "and are finding it difficult because most of those qualified for it already have some ideas of their own about relief. For instance, we do not want to

select a social worker who would be pre-disposed in favor of bigger relief expenditures, or a worker for lower taxes who would be pre-disposed to cut them to the bone.

"We want to find an absolutely impartial expert and are considering some persons who have not asked for the job, in addition to 10 applicants."

## DR. MARVIN TO ADDRESS DOCTORS AT BANQUET

Medical Society of St. Elizabeth's Hospital Will Hold First Dinner Tonight.

Dr. Cloyd Heck Marvin, president of George Washington University, will be the principal speaker at the first annual banquet of the Medical Society of St. Elizabeth's Hospital tonight at 7 o'clock at the Kennedy-Warren.

Guests of honor will include Dr. Winford Overholser, superintendent of the hospital, and his wife; Dr. Ross Chapman, president of the American Psychiatric Association and superintendent of the Sheppard Enoch-

Pratt Hospital; Dr. and Mrs. Bernard Gluck, New York, and Dr. A. P. Noyes, superintendent of the Norris-town, Pa., State Hospital.

Dr. John A. Lind will be toastmaster and Dr. Addison M. Duval, president of the Medical Society, will preside. Dr. Samuel A. Silk is chairman of the Dinner Committee.

## SEEKS RENO DIVORCE

Mrs. George Robert Howes, Rockville, Md., the former Miss Edna I. Benson, has filed suit for divorce in Reno, Nev., on grounds of cruelty, according to the Associated Press.

Mrs. Howes formerly was secretary to Stedman Prescott, former State Senator and State's attorney of Montgomery County. Her husband is a former county policeman and was a star athlete at Blue Ridge College. They were married in Rockville on August 29, 1929.

Suit for divorce also was filed in Reno yesterday by Mrs. Velda Stroupe McQueen against James Stuart McQueen, a clerk, 34 Longfellow street N.E.

## FIREMEN ANSWER ALARM

Not Needed for Short Circuit at G. A. O., However.

Several fire companies answered an alarm at the General Accounting Office, Fifth and F streets N.W., during the morning rush hour today when a short circuit in the basement cut off electricity in the building.

Firemen, finding no blaze, remained only a few minutes. G. A. O. workers, finding the elevators had no current on which to operate, walked up the stairs to work.

**GENERAL ELECTRIC REFRIGERATOR**

# BE THRIFTIER!

*Look at Your REFRIGERATOR*

**Triple-Thrift REFRIGERATOR**

Thrift in PRICE! Thrift in CURRENT! Thrift in UPKEEP!

Save ALL Ways! Look at the price tags, compare values! Check the G-E Refrigerator in current, in upkeep, in long life, in preserving of food, in freezing of ice, in convenience, in saving of time, etc. And we believe you will choose a G-E!

**1938 Electric REFRIGERATORS CONSUME less CURRENT**

Get a Genuine General Electric and Save the Difference!

General Electric originated the hermetically sealed Thrift Unit and 5 years performance protection plan. No other refrigerator has a sealed cold-making mechanism with a history and record equal to that of the famed G-E. No other refrigerator, under actual home conditions, can freeze more ice, preserve more food, give more convenience and produce more cold for the little current cost of a General Electric! And the record of low upkeep speaks for itself. Get the genuine General Electric—not an imitation! It costs so little you can easily afford it.

**This First Choice of Millions Now Popularly Priced!**

Last year America bought more G-E Refrigerators than ever before—and today's G-E is even a better buy! New 1938 models climax a 12 year record of ever increasing G-E values. See them! Get a full dollar's worth for your money—in beauty, in convenience, in dependable performance, in enduring economy—and all the thrifty savings a G-E has brought to millions of homes.

**Reduced 50%! PRICE**

Today this first choice of millions is popularly priced! The General Electric Refrigerators purchased 12 years ago—when General Electric introduced the sealed-in steel cold-making Monitor Mechanism—have long since proved excellent investments. And since then G-E values have gone up and prices down—average prices on all General Electric models have been reduced approximately 50%! New 1938 models are the biggest buys General Electric ever offered!

**Reduced 60%! OPERATING COST**

Hermetically sealed within walls of steel, the famed G-E Monitor Mechanism revolutionized refrigeration costs when introduced 12 years ago. Since then, basically unchanged and constantly improved, the G-E Thrift Unit has cut current costs 60% (figured on popular 6 cu. ft. size)! OIL COOLING developed by General Electric "House of Magic" gives more cold with less current and assures longer life.

**Increased 56%! COLD CAPACITY**

More cold producing capacity with less current consumption has resulted from G-E's research and engineering. Since the first G-E Refrigerator with sealed Monitor Mechanism, the cold capacity of the G-E has been increased 56%.

**ALL Electric REFRIGERATION costs less at PEPCO 1938 REDUCED RATES**

**FAST FREEZING**

3 Times As Fast! The freezing speed of the G-E Refrigerator has been stepped up until today it freezes over three times as fast as originally. In G-E models with six trays, 480 cubes can be frozen in 24 hours. And the average cost of current is less than the price of ice. New G-E Quick Trays release 2 cubes or a trayful at a time without melting.

**QUIET**

Operating Sound Reduced 78%! You can scarcely hear the slight purr of today's General Electric cold-making Monitor Mechanism. The first G-E set a new standard of quietness for refrigerators, and since then the operating whisper has been reduced 78%. This has been accomplished by such General Electric features as acoustic mufflers, "floating power" and forced-feed lubrication.
